Bachelor of computer applications (BCA)	2023-2026
From The Adoni arts and science college	CGPA:6.5

TECHNICAL SKILLS

- Front-End: HTML5, CSS3, JavaScript
- Frameworks / Libraries: Basic knowledge of Bootstrap
- Back-End: Core Java, OOPs, JDBC, Spring Boot
- Database: MySQL, PostgreSQL
- Tools: VS Code, Eclipse, Git, GitHub
- Concepts: DBMS, OOPs, Exception Handling, Collections, SQL Queries

INTERNSHIP

- | | |
|---|----------------------|
| •Intellirays Technologies Pvt. Ltd. | May 2025 – July 2025 |
| •Completed internship in Front-End Web Development | (View) |
| •Designed and Developed responsive webpages using HTML, CSS, and JavaScript | |
| •Created UI components such as forms, navigation bars, and landing pages | |
| •Practiced clean code structure and reusable styling techniques | |
| •Gained hands on experience in real-time web development task | |

PROJECTS

E-Commerce Web Application (ManFitX)

Tech Stack: Java | Servlets | JDBC | JSP | MySQL | CSS | JavaScript

GitHub: github.com/srishanth/manfitx

- Designed and developed a full-stack e-commerce web application for men's fashion and fitness products.
- Implemented user authentication and session management for secure user access.
- Built a responsive and user-friendly interface with banner sliders, category-based navigation
- Developed product search, filtering, sorting, shopping cart, and wishlist functionalities.
- Integrated MySQL database operations using JDBC and PreparedStatement to implement a real-time order management system for storing and tracking customer orders.

Employee Management System (EMS)

Tech Stack: Java | JDBC | MySQL | JSP | CSS | JavaScript

GitHub: github.com/srishanth/emp

- Implemented user authentication for secure system access.
- Designed a user-friendly interface with multiple sections including Dashboard, Employee List, Department Management, and Salary Analytics.
- Developed core CRUD operations for managing employee records (add, update, delete, view).
- Integrated MySQL database using JDBC to store and manage all application data efficiently.

Certificates& Training

- Completed java skill up course from GeeksForGeeks (View)
- Introduction to Generative AI – Google Cloud & Simplilearn SkillUp (View)
- Acquiring java Full Stack skills through intensive 6 months training Tap Academy
